

# The finest in electrostatic loudspeaker technology

## The S.A.L.L.I.E.

Products [Accessories](#)

**SALLIE** is an acronym that stands for "Sonic Attenuator for Lower speakers, such as Sound Lab's full-range electrostatic speakers, radiating panel. If the listening room is over-reflective audible interference is an undesirable condition referred to as the "comb-filtering" effect. **SALLIE** saves on expensive acoustical room treatment. Furthermore, the effect of altering the distance to the back of the speaker. **SALLIE** isn't visible since

### Specifications

#### **Attenuation:**

Coefficient of absorption exceeds 99% at higher frequencies

#### **Useful Bandwidth:**

250 Hz and above

#### **Nominal Dimensions:**

Height: 68 inches

Width: 12 inches

Depth: 12 3/4 inches Overall foot span: 19 1/4 inches)

#### **Color:**

Frame: Satin black

Wedges: Charcoal Grey

#### **Weight per Unit:**

15 pounds
